

Give your child the gift of writing

Writing Camps

**July 12-23
Grades 3-8**

This camp started ten years ago because parents were concerned about the level of writing instruction their kids were getting in school. Having great success, we have had over 500 kids become confident in their writing abilities. Experienced writing teachers systematically teach the basics of writing until your child is proficient.

Grades 3-8 The program is designed for both weeks; however a student may sign up for just one.
